Something Pithy. 🤪

Announcements

- 40 Palms Canyon is closed for the summer.

Light and Dark

Sun	Moon
Rise 5:48 AM Set 7:55 PM	Rise No moonrise Set 12:15 PM
UV Exposure: 8 Very High	Waning Gibbous 
For UV = Very High Extra protection needed. Be careful outside, especially during late morning through mid-afternoon. If your shadow is shorter than you, seek shade and wear protective clothing, a wide-brimmed hat, and sunglasses, and generously apply a minimum of SPF-15, broad-spectrum sunscreen on exposed skin.	

Fire Danger:

High

When the fire danger is "high", fires can start easily from most causes and small fuels (such as grasses and needles) will ignite readily. Unattended campfires and brush fires are likely to escape. Fires will spread easily, with some areas of high-intensity burning on slopes or concentrated fuels. Fires can become serious and difficult to control unless they are put out while they are still small.

This is a special fire warning, manually created.
